Test- You may take the test anytime between now and Sunday. You will find the test in MathXL. It is labeled "Ch 10 Radicals." Since it is a test, I set it up so that you only have ONE chance and it needs to be taken all at one time. There are 17 questions so please make sure you find a time that you can complete all the problems at once. You can use the notes that you took if you would like since this is of course special circumstances. PLEASE do not use the internet to figure out answers or each other. This test should be taken just like if you were at school. I want to give you guys the chance to prove what you know! For an extra credit point, ask one of your parents what their least favorite chore is. Do that chore for them. Then, text or post a pic of you doing the chore to Google Classroom (812-630-2625).
